Supply a drawing depicting the proposed use of the tent. Include tent size, seating and table locations, location of all electrical and cooking devices and location of all fire extinguishers.

Upon installation of the tent and all appurtenances e.g. tables, electrical devices, fire extinguishers etc. The responsible party shall call the construction office to schedule a tent inspection. (609) 397-0803.

Once the inspection is complete and approved the permit will be issued.

Be advised that approval of any tent or canopy requires a current "Certificate of Fire Propagation Performance" which will be available from the rental company or will be mounted on the tent and any tent sections.
